- 3mm hardened glass filter
- Epoxy furnace varnished aluminium construction
- Estimated bulb life of 2,000 hours
- 240V AC

IR TO ACHIEVE 24 HOUR SURVEILLANCE

The attractive marine finish of Vista's VIR Infra Red Lamp range belies the extremely robust nature of the unit lying beneath. Manufactured to an impressive IP66 rating, the units epoxy coated aluminium casing is impervious to attack from even the most hostile of environmental conditions.

Consequently, such sturdy construction provides an exceptional level of performance and reliability. Water ingress is prevented, eliminating any potential internal corrosion, leading to an impressive average bulb life estimated at 2,000 hours.

The VIR range is also extremely easy to install and maintain, in fact the casings are hinged to allow user-friendly access to key components in the unlikely event that attention is required.

Should you have an Infra Red Lamp requirement you will be hard pressed to find a unit which provides the robust nature, yet ease of maintenance, that the Vista VIR range of IR lamps can.
