ETHERNET

SCSI PORTS

SCSI
TERMINATION
& ADDRESS

RS232

ALARM OUTPUT

110 -120V AC / 200-240V AC IN

DIGITAL VIDEO ARCHIVING

Developed for use where large volumes of storage is required the Vista Array of Independent Disks Ethernet enabled (VAIDe) delivers more storage capacity, functionality and performance at a lower price than any other storage system on the market today.

The VAIDe can hold between two and eight Hard Disk Drives (HDD's) within its chassis. If installed with eight 250GB HDDs, the VAIDe will provide 2TB of storage space in total. This equates to approximately six months of recording time at 5 pictures per second (PPS) update.

Upgrading the VAIDe is easy. Simply start with the storage you need and should you wish to expand the system simply purchase the relevant number of HDDs (up to eight per system). The VAIDe will also be compatible with future, larger HDD storage sizes.

Archived video data can be reviewed locally through a Triplex™ Columbus or remotely via WaveReader software on a 10/100BaseT Ethernet network.

THE UK'S PREMIER CCTV BRAND

TECHNICAL SPECIFICATIONS

| VAIDe | |
|--|---|
| STORAGE: CAPACITY | 8 x EIDE Hard Disk Drives |
| DATA PORTS: SCSI PORTS 1 & 2 | 50 Pin, High-density, SCSI 2 |
| FIREWIRE PORTS 1 & 2 | IEEE-1394 |
| RS232 PORT | DB9 connector, male. Null modem cable required |
| NETWORK PORT | One RJ45 connector for 10/100baseT Ethernet connection port |
| FRONT PANEL: HARD DRIVE STATUS LED | Light On / Light Flashing / Light Off |
| HARD DRIVE ACTIVITY LED | Light On when drive is being accessed (read / write) |
| LCD DISPLAY | Total disk storage capacity and unit settings displayed |
| REAR PANEL: | Cooling fan |
| | Input power connector |
| | Voltage selector - 110V AC or 220V AC |
| | On / Off switch |
| | SCSI address and termination dip switches |
| MECHANICAL: CONSTRUCTION | Steel casing, 19" rack mountable, 3U |
| DIMENSIONS (D X W X H) | 349.25 x 441.96 x 129.34mm |
| WEIGHT | 12.69Kg |
| ELECTRICAL: INPUT VOLTAGE | 110~120V AC(60Hz) or 200~240V AC (50Hz) |
| POWER | 0.91A @ 120V AC or 0.57A @ 220V AC |
