- AI & DD versions

LENSES FOR FLEXIBLE CCTV SOLUTIONS

Available in 1/3" or 1/2" C and CS mount formats, the Vista range of Zoom lenses are widely regarded as premier optical units within the security surveillance industry.

The inclusion of a preset potentiometer option, designated by the suffix 'P', enables the lenses to allow for preset focus as well as zoom. For this reason they can be used with even the most sophisticated of telemetry control systems.

THE UK'S PREMIER CCTV BRAND

TECHNICAL SPECIFICATIONS

Part Number	Format	Mount Type	Potted	Zoom Ratio	Focal Length	Iris Type	F Stop	Weight	Dimensions (LxWxH)mm	Back Flange
